Pass or Fail:

Failed

BANIJAY RIGHTS QC REPORT

NOTES

Runtime QC of picture, English stereo mix on chs 1&2 and mix minus narration on chs 3&4.  
Reality show. Video levels are legal and within EBU TX parameters.  
Overall quality is generally good although due to the nature of the filming with multiple cameras of variable quality some inherent quality issues/artefacts are present at times throughout. Issues include noisy shots, aliasing, motion artefacts, raised blacks, luminance crushing, motion lag and unsteady shots.  
\*\*Audio is R128 compliant. Audio is of good quality - occasional ticks, lip smacks and spurious ambient noises.  
Programme is parted pulled up blacks to 1 sec. Text is 14x9 Title safe. Textless present.  
"Format owned and created by Zeppelin Television International Sales & Distribution - Banijay Rights" credit present at end of credits.  
No WAVs supplied.  
\*\*Video decode check complete - no issues found.  
Failed: File named as 50i but file is 25 progressive. Bumpers are inconsistent in length. End credit page outside 14x9 safe but within 16x9 90% safe. Repeated shot in textless elements
